

Video Launch 2009

You can't help but smile when you see Tourism Saskatoon's new video, "It's a Beautiful World Saskatoon". A new image of Saskatoon is emerging, one that showcases this delightful boutique tourism destination as a refreshing, vibrant and creative, genuine and friendly city.

This video is produced to assist in the selling of Saskatoon as a great place to visit for conventions & events, sporting events, independent and group leisure travel. In addition, a broader user of this video is to share Saskatoon's quality of life for those organizations attracting employees and investment to our city.
